

GPA MS Capability Statement

European Niche SME in Mission Critical Software, Simulation Systems and advanced engineering solutions.

Available to partnering with Industrial consortia as specialized subcontractor or technical work package leader.

Company Overview

GPA MS (Management Services) is an Italian specialized SME delivering high-value software engineering services and proprietary solutions for mission critical, safety critical and business critical systems.

Established in 2007, GPA MS supports leading industrial organizations through the design, development, modernization and long-term maintenance of advanced software platforms.

Headquarters: Italy – Milan / Rome

What makes GPA MS different

Large enough to deliver.

Small enough to be agile.

Senior enough to solve complex problems.

Selected Industry Experience

- Aerospace & Defence
- High-Tech & Industrial

Core Competencies

Mission Critical Software Engineering

- Real-time software systems
- Software modernization / re-hosting

Simulation & Training Systems

- Radar, FLIR and other sensor simulation modules
- Synthetic vision systems
- Pilot training environments
- Real-time scenario engines

Aerospace & Avionics Software

- Ground stations
- Mission planning software
- HUMS / predictive maintenance support
- Sensor fusion environments

Geospatial & Visualization Systems

- GIS servers, 2D / 3D rendering engines
- Mission map systems
- Geodata processing pipeline

REGISTERED OFFICE: Via Ferdinando Galiani, 68 (00191) Roma
OPERATIVE SITE: Via Guido Visconti, 25 (21019) Somma Lombardo (VA)
